

If you're worried about how much you'll have to live on when you retire, then this short presentation could make a significant difference to your retirement.

Did you know that from the time you turn 55, you can access your superannuation? This gives you enormous opportunity to build your retirement savings through a strategy known as 'Transition to Retirement'. (TtR).

It's a simple strategy that allows you to access your super fund before total retirement, providing tax effective opportunities for you to maximise your retirement income.

The earlier you start, the more you have to gain. Don't miss this opportunity to capitalise on building further retirement wealth. As part of our ongoing presentation series, Provident aims to keep you informed through this short presentation from one of our senior financial planners.

Speaker: Greg Neill GDip Fin Planning F Fin
CERTIFIED FINANCIAL PLANNER™
